ANTOINE CARON

FULL-STACK DEVELOPER

Passionate developer with a strong focus for front-end & UI/UX.

EXPERIENCE

MongoDB/Express/Node.JS/AWS
Book Rating Web App

Created the back-end of a Book Rating App, implemented CRUD operations and optimized user-uploaded images for efficiency. Utilized AWS for secure image storage. Followed MVC architecture and prioritized Green Code and web security.

AGILE/Kanban/Wakelet/Linear
Menu Maker Web App

Utilized mock-ups, functional specifications, and user stories to establish technological surveillance. Drafted technical specifications and implemented a linear management tool for applying the Kanban method. Presented chosen solutions and working methods via Google Slides/Google Docs.

React/Sass
Renting Apartment Web App

Developed gallery, carousel, and other components. Applied responsive design based on Figma mockup. Utilized JSON data for accommodation details.

Bootstrap/jQuery/SEO
Photographer Portfolio

Resolved bugs from Bootstrap / jQuery code and enhanced SEO using Lighthouse, Schema.org and <meta> tags. Emphasized accesibility and reduced website loading time.

HTML/CSS/JS/PostgreSQL/Heroku
Architect Portfolio

Connected front-end to existing back-end, implemented login/logout system, project gallery and editor mode.

Head Barman, Executive Assistant, Restaurant Director 2018 – 2022

Spearheaded openings and process implementation in hospitality settings. Developed drink menus and introduced ordering and cash register software. Led team recruitment, organization, and business optimization efforts.
